PROPERTY SECRETS

The business model of our independent North East sourcing team is to buy properties in and around County Durham which have been left to ruin by doing up homes that are in poor condition, by refurbishing the properties to the minimum of the Durham Decent Home Standard, improving the desirability of the properties and their neighbourhoods and homing approximately 10 families in better homes every month.

The amount of work will vary depending on the original state of the property but include the following (if necessary).

- New Boiler
- Double Glazing
- Electrical upgrade and Report
- Damp proof course
- Hard Wired Smoke Alarm
- Secured Carbon Monoxide alarm with minimum 5yr battery life (Since 1st Oct 2022)
- External Extraction in Bathroom
- Plastic Cladding in bathrooms / toilets
- Carpet, Lino, underlay
- Kitchen / bathroom
- General decorating
- Check of the roof, guttering and fascias
- Painting of external headers and sills
- Tidying of external yard / garden space

Any snagging issues following the refurbishment are resolved free of charge in the first 6 months following your purchase.

In line with our sourcing teams principles, on 1st April 2022, Durham County Council bought in a Selective Licensing scheme for many of the properties in the County Durham area. We are happy to confirm that as part of the refurbishment, will also provide you all the documents and information that you will need regarding your property so that you can apply for the selective licence, this includes ensuring that all relevant certificates are up to date.
